

Report of WHO Visit of the MEP Project in Tabriz University of Medical Sciences

On 19th July 2004, Dr. Sheikh Mobasher, WHO representative of Ministry of Health and Medical Care in Iran, along with Dr. Tarin and Dr. Mafi and Top WHO Office Experts visited the MEP Project of Tabriz University of Medical Sciences; during their visit Dr. Alireza. Nikniaz Manager of the MEP Project and his colleagues in the Training Center proposed the function report of the project and future activities; then visited the two Sites of implementing the program: Azzahra Hospital and Sina Cooperative Health Center.

In a common meeting with Dr. Jodati, Manager of Tabriz University of Medical Sciences, they exchanged their point of views about the progress of the Project and the ways of expanding the program. In the Final meeting Dr. Sheikh Mobasher, presenting his loyal satisfaction of the activities of this center, mentioned the required guiding.

While appreciating your sincere visit of MEP Project, we announce that presented guidance and suggestions by the visiting council will have a great effect in planning the progress of the activities and we are looking forward having much more attention from you.

With the best regards
Dr. Alireza. Nikniaz
Director of MEP Project in Iran
